1. INTRODUCTION

The Student Recruitment Portal is designed to provide a secure and efficient platform for managing Work Integrated Learning (WIL) placements. It enables students, businesses, WIL co-ordinators, and administrators to interact within a centralized system. The portal streamlines student applications, business postings, coordinator oversight, and administrative control, while ensuring compliance with legal standards such as the POPI Act. The goal is to improve transparency, efficiency, and communication among all stakeholders involved in WIL placements.

2. USER CATEGORIES

The system supports four primary user categories:

1. Students - Apply for and manage internship opportunities.
 2. Businesses - Post internships and review applicants.
 3. WIL Co-ordinators - Oversee student and company placements.
 4. Administrators - Manage all user roles and ensure compliance.
-

3. REQUIREMENTS:

3.1. STUDENTS

- Must be able to register with a valid university-issued email address.
- Can create and manage personal profiles (demographics, contact details, CV, profile picture, personal projects).
- Can apply to internship posts related to their course/stream.
- Can retract applications before due dates.
- Can view and edit saved but incomplete profiles.
- Can subscribe to newsletters for job notifications.
- Cannot view other students' profiles or applications.
- Limited to one active CV and one active account.
- Can indicate whether they are placed via the system, placed externally, or still unplaced (for coordinator tracking).

3.2. BUSINESSES

- Must register with a valid business email address and business number.
- Can create, update, delete, and preview internship posts.
- Can extend or close posts at any time.
- Can view and download received student applications.
- Can request account changes (e.g., company name updates, deactivation).
- Limited to seeing only students associated with their company.

3.3. WIL CO-ORDINATORS

- Registered by administrators only.
- Can view students and businesses associated with their assigned course.
- Can monitor and categorize student placements (placed by system companies, placed externally(self-placed), unplaced students).
- Can track company placement statuses and student progress.
- Can search applications by Job ID.
- Should capture and maintain their own contact details.

3.4. ADMINISTRATORS

- Have full authority over user management.
- Can remove or deactivate users (students, businesses, or coordinators) from the system.
- Can disable or enable student accounts after internships.
- Cannot edit personal user details (e.g., gender, demographics, company details).
- Responsible for registering WIL co-ordinators.

4. SYSTEM REQUIREMENTS

4.1. AUTHENTICATION & ACCESS

- Registration and login with email verification.
- Password reset functionalities for all users (except admin who use code-based access).
- POPI Act compliance: users must agree to terms & conditions during registration.

4.2. USER PROFILES

- Role-based access: Student, Business, WIL Co-Ordinator, Admin.
- Each profile must store relevant details (students: demographic & CV; businesses: company info, registration number; coordinators: contact info and assigned course).

4.3. BUSINESS POSTS

- Multiple internship posts supported.
- Posts close automatically at deadline.
- Posts can include external test links.

4.4. APPLICATIONS

- Students can apply only to internships within their stream.
- Students can apply to multiple companies but only one active application per company.
- File format restrictions: .pdf, .docx, .png, .jpeg.
- Students must preview applications before submission.
- Application status tracking available.

4.5. CONSTRAINTS

- One active account per user.
- Distinct interfaces for each user category.
- Access limited to role-specific data.

4.6. OTHER FEATURES

- User Guideline Module: Step-by-step guidance to help users navigate the portal and understand available features.
- Bug reporting tool (forwarded to admin/dev team).
- Newsletter subscription for students to see uploaded vacancies.
- Compatibility with both PC and mobile (Android & iOS).
- Support for platform-specific features (gestures on mobile).

5. FUTURE ENHANCEMENTS / IDEAS

- Companies providing direct feedback to students on applications.
- Enhanced application tracking and progress updates for students.
- Advanced statistics and visualizations (placed vs unplaced students, number of applications per student, external placements).
- Integration with community-based businesses and NGOs that provide internship or placement opportunities.

6. LEGAL & COMPLIANCE

- Compliance with the POPI Act for data protection.
- Users must consent to terms & conditions before account creation.
- All sensitive data must be stored securely and used strictly for WIL purposes.
